The evening of Thursday, June 12, 2008 found the hallways of Pond Home, Wrentham's only Residential Care and Supportive Nursing Care Facility, full of young families mixing with the residents who call the yellow colonial home. The occasion was Our Redeemer Child Care Center of Foxboro's 2nd Annual Art Show & Reception. This year's show was timed to be an early celebration of Father's Day.

The art displayed throughout the public areas of Pond Home was the children's' creations celebrating spring and family. The young artists, their families, residents and staff of Pond Home enjoyed viewing the art and sharing in a punch, fruit and cheese reception. Residents commented how they especially loved the family pictures because the children provide such cute perspective on things. The toddlers were happy to point out their creations to anyone who asked to see them. The art will brighten the walls of Pond Home and the minds of anyone who gazes at them through the weekend!
